PRODUCT LINE RCF REPAIRS CUSTOMER FRIENDLY

Chemical solvents can be found in many working processes. Even if concentration is not very high, certain solvents are likely to irritate or represent a hazard to human health. That is why REMA TIP TOP AG in cooperation with R&D centres such as alfa-Development GmbH developed some first products completely solvent-free which we are glad to offer to you as an alternative to known products.

PRODUCT LINE RCF

Benefits

RCF Fast Dry Buffer - Ref. No. 593 2010

- To clean the tyre inside without adding water or solvents
- Simple to use: apply with brush and levigate
- Reduces effort: abrasive material absorbs the partially dissolved dirt and is then sucked off or wiped off
- Sustainable effect: compatible with all repair materials and rubber types available in tyres
- Avoids work-related health hazards caused by solvents

RCF Innerliner Sealer - Ref. No. 515 9090

- Solvent for sealing porous innerliners and for coating excessively buffed repair areas on the tyre inside
- Simple to use: apply with brush and let dry
- Sustainable effect: compatible with all repair materials and rubber types available in tyres
- Avoids work-related health hazards caused by solvents

Scope of delivery

Ref. No.	Description	
593 2010	800 g Bucket with resealable cover	

Ref. No.	Description	
515 9090	1000 ml Bottle with sealing cover 1 Brush top, 60 mm	

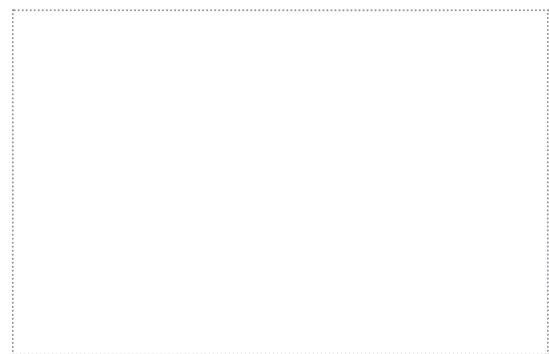

Optional accessories

Ref. No.	Description	
595 8380	Rotary brush, 100 mm Ø	
519 7028	Vacuum cleaner for dust/water	

Ref. No.	Description	
595 8308	Special brush No. 10	
595 8370	Brush top, 60 mm
