

// ONE BRAND // ONE SOURCE // ONE SYSTEM

Increased production capacity
Reduced spillage and waste

REMATRAC

The REMA Belt Tracker

Belt Tracking System providing solutions to avoid problems with the tracking and aligning of conveyor belts.

BELT TRACKING SYSTEM PROVIDING SOLUTIONS TO AVOID PROBLEMS WITH THE TRACKING AND ALIGNING OF CONVEYOR BELTS.

REMA TIP TOP is the preferred sales partner of TRU TRAC for EUROPE. Tru-Trac Rollers (Pty) Ltd. is the world's leading supplier of solutions relating to problems experienced with the tracking and aligning of conveyor belts.

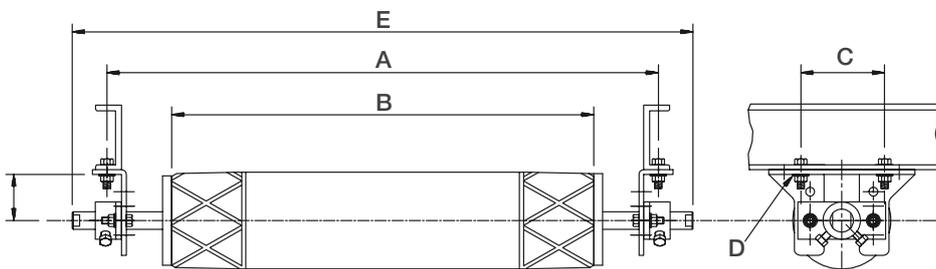

Conveyor belts that run off-centre cause spillage, loss of production and damage to the belt as well as the conveying system.

REMA TIP TOP offers a perfect solution: The REMA Belt Tracker. This specific tracking technology available from REMA TIP TOP is accessible in virtually all belt widths and can be customised to meet customers' requirements. The belt tracking rollers are delivered with a hot vulcanised rubber running surface. The two-bearing construction guarantees optimal sealing.

ADVANTAGES

- Increased production capacity
- Maximum protection against damage to the belt as well as to the conveying system
- Reduced spillage and waste
- Reduced cleaning costs
- Reduced energy costs
- Compact design, easily installed
- Maintenance-free
- Operates under all conditions
- Suitable for reversible conveyors
- Long service life
